Brief All Moral -
posted brief earlier today to PSC.
+ Cabinet.

In normal operations they would have to gain compliance through ILT's

have been prevented from fully
resolve + compliance by OPS Council +
Council.

- things negotiated in good faith have
not been carried through on.
- have now looked into design
- provided brief + materials to
OPS Deputy Chief + believed to
have found some agreement
- PCT has asked "what can we do to get
you to leave?"

- in answer if we get to leaders
we can influence solidarity.

- can more easily identify targets.

Ask if they can get a meeting can they
then distance actors in Ottawa +
elsewhere?

- Fed. Gov't cannot negotiate right now
but would meet to listen.

④ Asked Deputy Ferguson if PCT can have
autonomy + authority to operate in good
faith.

- Gov't will provide an email to PCT
to provide to 6 identified leaders

- would give 4-6 days to leave the
hold unity.

④ underlying issues have nothing to do
with policy + everything to do with Gov't.

- needs to be concerted strategy
- ops + PLT need to be in concert.
- Concern = early forgiveness -
88% of people complaint + voice
25% command.
15% "on the line" + influenceable
by police action.
- unpredictable police action will spot
unpredictable protest action.
- heavy handed unpredictable actions will
cause more issues long term provocatively

④ Inhl advy tomorrow's action already on PD (Ch. Spt. Reed)

- PLT has been ☐ covering roads
to ask for higher blockades to
be made.
- Protesters in Sarina/Windser have said they
will leave when Ottawa leaves.
- PLT is working on clearing Rideau/Sussex.
- PLT will ensure overall command is
aware of goals + messages to
ensure consistency in other parts of
operations (re POU, uniform)
